

ABSTRACT

A Line Up is a list of tasks that need to be completed, typically organized in a order . It is one of the simplest solutions for task management and provides a minimal and elegant way for managing tasks a person wishes to accomplish. Our aim is to design a simple and elegant website for people to keep a track of the status of their tasks .The immense satisfaction that one gets when completing the task and marking it on the list are incomparable .Moreover, creating a list of tasks ensure you don't miss out on anything. It's a scientific fact that when you write the task that you need to complete, you are even more motivated to complete it. With this in mind, we come to build a platform which will help people create their own task list. With the help of modern tools and technologies, we strive to build a minimal and efficient Line Up which minimizes distractions and helps people achieve task management with ease and without hassle.
